KLEYES

KEEP LOOKING

Style, elegance and quality are the key features of the sunglasses from the new Kleyes collection. An essential and classic design intertwines with more sought-after geometries, thereby bringing to life a unique, iconic style.

Kleyes sunglasses are designed for him and for her and they feature lightweight, comfortable and high-quality frames.

Choose Kleyes and feel free to express your true self with a timeless style.

**Choose Kleyes to always look beyond
what you see.**

KLEYES

K E E P L O O K I N G

The sunglasses distributed by **KLEYES** for **Chogan Group S.p.A.** meet the essential safety requirements laid down in the European Directive 89/686/EEC as amended and are consistent with the EN ISO 12312-1 Standard. KLEYES sunglasses, under normal conditions of use, protect the eyes from the harmful effects of sunlight.

WARNINGS

Not for direct observation of sun or solar eclipse. Not for protection against artificial light sources. Not for use as eye protection against mechanical impact hazards. Not for night driving or driving under conditions of dull light.

CLEANING

Clean lenses and frames with water and a mild soap solution and dry with a clean, soft cloth. Cleaning eyewear with dirty or abrasive cloths may damage it and alter its characteristics.

STORAGE

KLEYES sunglasses should be stored in their case. Avoid exposure to sun in closed, unconditioned environments (e.g. car dashboard), since temperatures reached under these conditions can impair their functionality. Replace damaged or worn-out components with original spare parts only. Lens filter type is normal. The model ID and the filter category are printed on the inside of the eyewear temples.

LENSES

Filter Cat. CE 0 – Transmittance: 80% - 100%

Very light-tinted lenses. Very limited reduction of sun glare.

Filter Cat. CE 1 – Transmittance: 43% - 80%

Light-tinted lenses. Limited reduction of sun glare.

Filter Cat. CE 2 – Transmittance: 18% - 43%

Sunglasses for general use. Good protection against sun glare.

Filter Cat. CE 3 – Transmittance: 8% - 18%

Dark-tinted lenses for general use. High protection against sun glare.

Filter Cat. CE 4 – Transmittance: 3% - 8%

Very dark-tinted lenses for special use (e.g. at sea, over snowfields, on high mountains, in the desert). Very high protection against extreme sun glare. Not for driving or ordinary daily use.
